

Jennifer Winter

Scientific Director, Energy and Environmental Policy, The School of Public Policy, University of Calgary

Dr. Jennifer Winter (PhD, Calgary) is an Assistant Professor and Scientific Director of the Energy and Environmental Policy research division at The School of Public Policy, University of Calgary. Jennifer also directs the Canadian Network for Energy Policy Research and Analysis. Her research is focused on the effects of government regulation and policy on the development of natural resources and energy, and the consequences and trade-offs of energy development.

Jennifer has published academic and policy papers, including two examining the efficiency of carbon taxation, three examining Canadian energy literacy, two on the safe transportation of crude oil, and a paper on the idea of “green jobs.” Other projects she is currently working on are the prospects for Canadian LNG exports to Europe, social impacts of hydraulic fracturing, and comparing provincial emission-reduction policies.

Dr. Winter is actively engaged in increasing public understanding of energy and environmental policy issues; recognition of her efforts include a 2014 Young Women in Energy Award and being named one of *Alberta Oil Magazine*'s Top 35 Under 35 in 2016. Prior to joining The School of Public Policy, Jennifer worked at Human Resources and Skills Development Canada, researching Canadian labour markets. Dr. Winter also serves on the Future Leaders Board of Directors of the World Petroleum Council Canada and is a member of Global Affairs Canada's Environmental Assessment Advisory Group.
