

**Dan McFadyen**  
**Executive Fellow**

Dan McFadyen is a professional engineer with over three decades of experience in the public service and the energy sector.

Dan served as Chairman and CEO of the Energy Resources Conservation Board (ERCB) from February, 2008 until December, 2012. As Chairman, Mr. McFadyen was responsible for directing the ERCB's regulatory mandate governing energy resource development in Alberta. Before joining the ERCB, he was appointed Deputy Minister of Alberta Energy in January, 2006.

Prior to be appointed as Deputy Minister of Alberta Energy, Mr. McFadyen held other senior positions in the energy sector and with government, including:

- Vice President, Regulatory Affairs and Public Policy with the Canadian Energy Pipeline Association (CEPA)
- Deputy Minister of Energy in Nova Scotia
- Senior leadership positions with the Saskatchewan public service, including the Saskatchewan Research Council, Department of Industry and Resources, and Department of Energy and Mines

Mr. McFadyen has a Bachelor of Science in Mechanical Engineering from the University of Manitoba and is a member of the Association of Engineers, Geologists, and Geophysicists of Alberta.
