Krystle Wittevrongel is a Research Associate in the Health Policy division at the School of Public Policy, University of Calgary. Krystle currently works on a number of exciting projects undertaking research and analysis of policies, programs, and supports as they relate to various health policy topics using quantitative and/or qualitative methods of data collection. Krystle holds a Master's degree in Public Policy from the University of Calgary, with her Capstone focusing on exploring the current status of concussion policy in secondary schools in Alberta. Also from the University of Calgary Krystle holds a Bachelor's of Art degree in Development Studies and a Bachelor's of Science degree in Biological Sciences. From the Centre for Refugee Studies at York University Krystle holds a Refugee and Forced Migration Studies Certificate. Her current research is in the area of neurodevelopmental disabilities, with a focus on barriers to employment for persons with developmental disabilities and practical solutions and policy options to address these barriers. Additional research interests include concussion policy, social determinants of health, and health care utilization.
